

Specialized Programs @ SATEC

Specialist High Skills Major (SHSM)?

By finding their passion, students get a head start on life! The SHSM allows them to get a head start. A SHSM is a Ministry of Education approved program run at selected schools across Ontario. It is a flexible combination of courses and experiences that allow students to gain specialized skills, knowledge and experience in a particular sector of the Canadian workforce and prepare them for the future.

SATEC @ WA Porter CI offers two different SHSM programs:

- SHSM: Environment
- SHSM: Information & Communication Technology (ICT)- Computer Engineering & Networking.

Benefits of Enrolling in the SHSM Program:

- Students successful at earning a SHSM receive a Specialized Ontario Secondary School Diploma with a SHSM identification on transcripts and other student records.
- Experiences from SHSM allow students to make connections with industry that will aid them in future career hunting.
- The SHSM program allows access to resources, equipment and expertise that are not available at most secondary schools.
- The components of a SHSM ensure quality programs and experiences that add value to post-secondary and employer applications and resumes.

See the **SHSM Program Requirements** sheet for more details.

For SHSM Program Applications or for more information, visit the www.satec.on.ca or contact the Guidance Department, Mr Sutcliffe or Ms. Greenfield.

Focus on Information Technology (FIT) & The CISCO Networking Program

The FIT graduate, is an industry certified person who has developed technical, business/entrepreneurial, and employability/essential skills in preparation for a wide range IT positions or post secondary education. The FIT core program prepares students for national certification based on industry-recognized standards.

Grade 11 Courses		Grade 12 Courses	
Business Entrepreneurship	<input type="checkbox"/> BDP3O1		
Computer Engineering	<input type="checkbox"/> TEJ3M1	Computer Engineering	<input type="checkbox"/> TEJ4M1
CISCO Networking	<input type="checkbox"/> TEN3M1	CISCO Networking	<input type="checkbox"/> TEN4M1
Students will also take certification programs in First Aid, CPR, GPS, Workplace Hazardous Materials Information System (WHMIS), CISCO Networking Certification (CCNA), A+, FIT, among others.			

For more information, please contact Mr. Sutcliffe

Yearbook Program

Are you interested in technology, a foundation in graphic design, digital photography and growing as a leader? Then the dual credit yearbook program at SATEC is for you! The yearbook program incorporates both Visual Design (AWD30/AWD4M) and technology (TGG3M/TGG4M) courses into a full year program.

As creators, designers and leaders in this dynamic program, students are taught to create, manage and produce high quality graphic designs from design concept to publishing ready files. Grade 12 students take on a leadership and mentoring role as senior editors, responsible for the finalized design and completion of the yearbook. The design techniques and multi faceted skills learned in this program are invaluable to any future course and career including, publishing, graphic design, digital photography, visual art and business.

Grade 11 Courses		Grade 12 Courses	
Visual Arts –Visual Design	<input type="checkbox"/> AWD3M1	Visual Arts –Visual Design	<input type="checkbox"/> AWD4M1
Computer Engineering	<input type="checkbox"/> TGG3M1	Computer Engineering	<input type="checkbox"/> TGG4M1

Students will take one course each semester.
